Our vision is simple. We offer more than just a policy - we deliver distinctive insurance solutions and we promise a superior local customer service

No two businesses are the same. So when it comes to commercial insurance, everyone has very different requirements that they need to ensure are correctly covered. At Ascend we are experts at arranging your cover to fit your business.

We offer a personal local service to business customers in specific industry sectors. We understand that no single client is exactly the same which is why we have developed specialist facilities and partnerships that offer a viable alternative to those of our competitors.

Our passion is to not just protect your assets, liabilities & balance sheet, but to help you grow.

We bring a fresh, dynamic and professional approach to your arrangements, delivered by well-respected insurance market professionals. Broking is our business and we have a reputation for delivering the right solution, expediently and competitively.

We will

- Provide specialist advice on all classes of insurance
- Design, deliver and service the products & propositions that are industry specific
- Regularly review our offering to ensure we remain at the forefront of product service
- Provide you with access to exclusive markets
- Undertake a mid term policy & claims review
- At all times act with honesty and integrity
- Deliver a personal local service
- Provide you with a competitive edge

You will also have the benefit of dealing with people that care. We are not some big faceless company - quite the opposite in fact. We prefer to work face-to-face so we can get to know your business and act as an extension to your team. So, if you do need to make a claim or discuss how best to reduce risk in your workplace, there will always be someone you can trust.

What we do

We are a sector specific insurance broker providing broking, claims and administration services to clients throughout the UK.

We have worked across the industry - from directors in our own regional brokerage, to UK national and international insurance brokers in high profile positions - so have extensive experience in managing insurance requirements for our clients. No risk is too small or too complex for our broking professionals. As we have worked across a magnitude of broking models, this has enabled us to bring our customers something refreshing in a new, more focused broking environment without unnecessary cost.
