

# Coronavirus Response

## Final AXA update: Working from home Further concessions to customers for the period to December 31<sup>st</sup> 2020 inclusive.

Cover for Business Equipment and Office Contents at the homes of employees to support working from home – Final extension of cover up until December 31<sup>st</sup> 2020.

As per previous communications, AXA has recognised that many businesses have needed to change their operating model as response to the impact of Covid-19 in the UK.

One common reaction has been to significantly increase the number of people who are working from home (whether full-time or for part of the working week) and therefore the need to ensure that their cover for Business Equipment or Office Contents extends to give the same cover at employees' homes, or in transit to or from employees' homes, anywhere in the UK.

We therefore extended all our policies to offer this cover up to a limit of £2,500 any one item and any one location (provided of course that the overall sum insured is adequate to meet the cost of all such equipment, both at any business premises and at employees' homes).

We believe that this approach may become a permanent feature for many businesses and that therefore these covers may be needed in the long term. We have therefore extended this temporary coverage so it will apply **up until December 31<sup>st</sup> 2020**.

If your client still requires this, or similar cover, after this date could you please contact AXA over the next five months (or at renewal if this occurs before this date) to ensure we update the standard coverage to meet the precise needs of your client.
